SINGLE PHASE SERVICE REVAMP

POLICY

It shall be the policy of M.J.M. Cooperative that if a Member requests a service revamp, it will be up to the Cooperative to determine if the conditions are suitable for such a service, and if so, the Member shall be responsible for costs as outlined herein associated with installing said underground service.

RESPONDIBILITY

President/CEO and Management

PROCEDURE

- 1) Cooperative Engineering Department shall determine if conditions are suitable for underground service.
- 2) When it has been determined conditions are suitable for underground service, the Cooperative will provide trench and initial backfill. Member is responsible for any subsequent backfilling or landscaping. Member requesting underground will compensate the Cooperative the projected cost.
- 3) Member agrees to provide unrestricted right of way. In the event the Cooperative is required to relocate or repair underground due to damage or obstructions caused by the Member, the Member will pay the full cost of repair or replacement.
- 4) M.J.M. Electric Cooperative will provide underground service for homes and mobile homes in locations deemed suitable for underground service. Members will furnish and install an acceptable service disconnect on load side of meter, and, in addition, provide their own underground service beyond the metering point.
- 5) All required aid to construction shall be paid in advance of the service revamp.

Marcie Tonsor, Secretary
