

M.J.M. ELECTRIC COOPERATIVE, INC.

SECTION III – MEMBERS & CONSUMERS

Policy 4A Approved: 11/30/2010

REVIEWED: 08/27/2015

REVISED: 11/29/2018

ACCESS TO ELECTRIC METERS AND MJM FACILITIES

POLICY

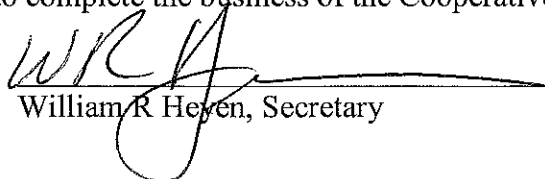

No MJM meter or electrical facilities shall be located inside a building and the Cooperative, including its agents, shall have unobstructed access to all electric meters and any other MJM facilities.

RESPONSIBILITY

President/CEO, Management and Staff

PROCEDURE

1. Members of the Cooperative shall provide access to electric meters, and any other MJM facilities necessary to provide electric service, at all times.
2. Members who fail to provide unobstructed access will be required to correct the situation as soon as it is reasonable to do so. If a safety concern is involved, the Cooperative reserves the right to disconnect the service immediately. Disconnect and reconnect fees may apply.
3. If the Cooperative determines that an electric meter needs to be relocated, the Member will be notified in writing. Relocation of the proper metering facilities will need to be approved by and coordinated with the MJM Engineering Department. If the need to relocate the meter is the result of action taken by the Member or their predecessor in title, the Member will be responsible for the actual relocation of the proper facilities necessary for the installation of the electric meter and the associated cost of the relocation. Relocation of the metering facilities shall be completed within 6 months after the member has been notified.
4. Failure to provide access to the electric meter and any other MJM facilities may result in penalties and/or disconnection.
5. In the event that access to an electric meter and/or any other MJM facilities is obstructed for any reason, the Cooperative reserves the right to bill the Member according to the established fee schedule for charges on Member's side of the meter for each trip it must make to complete the business of the Cooperative.

William R. Heyen, Secretary
